Discharge Following a Colonoscopy

Patient's Name: _____

Date: _____

Sedation: Yes / No

Entonox: Yes / No

Drugs given: _____

For 24 hours after the sedation you must not:

- drive a car
- operate machinery
- drink alcohol
- sign legally binding documents

Please ensure you have a responsible adult with you for the next 24 hours.

At the discretion of the nursing staff, you may be able to drive home 30 minutes after using Entonox.

You can eat and drink as normal from now.

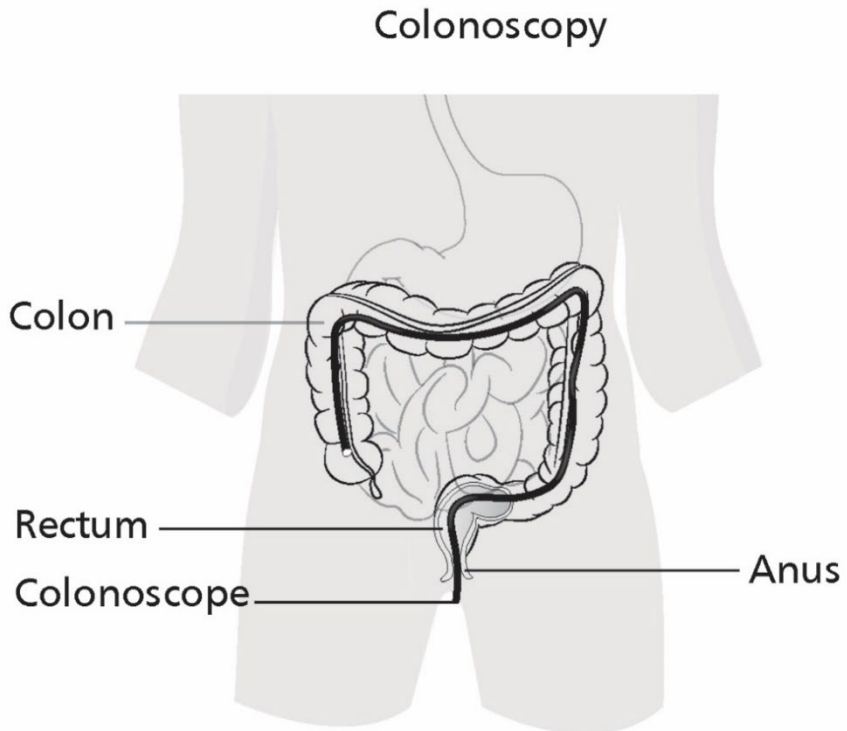

You may experience wind type pains, but this should settle when you start moving around.

It may take 2 – 3 days for your bowel movements to return to normal.

If you have had a polypectomy please:

- be aware that you may notice blood in the toilet or on the paper
- watch for increased pain in your abdomen
- watch for any raised temperature

If your pain becomes worse, you experience any heavy bleeding, are passing blood clots or if you experience any severe pain or distention in your lower abdomen, you must contact one of the telephone numbers on the following page.

Results of your examination:

Do you have access to a computer and internet access Yes / No

For information about the results please visit www.gutscharity.org.uk

Leaflets can be printed on request.

Follow up:

If you have had any samples taken today your consultant will let you know the results within 6-8 weeks, or contact your GP.
